

A high-quality photograph of a Fiskars knife, likely a chef's knife, partially submerged in water. The blade is sharp and reflective, with the text 'FISKARS' and 'SINCE 1859 FINLAND' visible on its side. The handle is dark and textured. The water is dark blue with many small, white bubbles around the knife, creating a dynamic and fresh visual. The Fiskars logo is prominently displayed at the top in a bold, orange font.

FISKARS®

The cooking catalogue 2023

Over 370 years of history are proof of our commitment to quality. Fiskars products are ingeniously functional, uniquely user-friendly, impressively long-lasting and aesthetically iconic.

We take action for the environment

A close-up, high-contrast photograph of a Fiskars knife partially submerged in water. The knife's blade is vertical, and its handle is angled downwards to the left. The water is dark and turbulent, with numerous bubbles and ripples surrounding the knife, suggesting it has just been moved or is being tested. The lighting is dramatic, highlighting the metallic surfaces of the knife against the dark, textured water.

fiskars.com/sustainability

Doing what we love brings us happiness. To really enjoy the activities we love, and make a positive impact beyond our homes, Fiskars takes action for the environment. Every product detail is designed for the best of the user and the environment, increasing sustainability and overall happiness.

The Fiskars story began over 370 years ago.

1649

Fiskars ironworks founded in Fiskars village

1832

Production focuses on processing iron, and Finland's first cutlery mill is founded, with a product range expanding from knives to include forks and scissors

1883

Fiskars becomes a limited company

1929

Fiskars transforms to accommodate mass production

1956

Fiskars hones its expertise in cookware

All Fiskars cookware is manufactured at our own factory in Central Finland, in the village of Sorsakoski. The factory has been inseparable part of Sorsakoski and whole Leppävirta area since 1891, serving first as Hackman and later as Fiskars factory. Made from high-quality materials, our cookware is durable and timeless – perfectly combining innovation and Nordic craftsmanship.

Technologies & materials explained

Fiskars cookware materials

Stainless steel

Stainless steel is an outstanding cookware material that's suited to all kind of cooking. Due to its natural properties, stainless steel is extremely durable, hygienic and easy to care for. Stainless steel has a naturally attractive appearance and, by default, sustains very high temperatures. All Fiskars stainless steel cookware includes an Aluminium layer for improved heat conductivity, and it enhances product performance. All Fiskars cookware products work on any hob, including induction hobs. Fiskars stainless steel cookware product lines are **All Steel**, **Norden Steel**, **Hard Face Steel** and **Functional Form Casseroles**.

Aluminium

Aluminium has very good thermal conductivity, thus it guarantees naturally equal heat distribution to base and sides of the cookware, speeding up food preparation and saving energy. Aluminium is light to handle and excellent for everyday cooking. All Fiskars cookware products work on all hobs, including induction hobs, thanks to a special treatment of Aluminium. Fiskars Aluminium cookware product lines are **Functional Form Frying pans**, **Hard Face** and **Taiten**.

Cast iron

Cast iron performs best for long and gentle simmering of soups and stews, oven-baking, and also for extreme, high-temperature frying of steaks and such due to its superior heat capacity. Cast iron cookware performs better with age due to natural seasoning it accumulates during use. Cast iron is not suited for the dishwasher, and it should be exclusively hand-washed. Fiskars cast iron cookware product line is **Norden Cast iron**.

Technologies in our products

Technology	Energy Base	OPTIHEAT™	3-layer base	3-ply technology	LZR-EDGE™
Icon				 	
Description	<p>Energy Base performs well on all hobs, but the ultimate benefits are evident with a ceramic hob, where Energy Base heats up to 50% faster and uses 30% less energy by transferring heat easily.</p> <p>Used in all Fiskars Aluminium cookware products.</p>	<p>OPTIHEAT™ technology protects the cookware coating from overheating on an induction hob. When the temperature of the pan exceeds 230°C, the material demagnetises until the temperature drops. OPTIHEAT™ technology activates only on an induction hob but is usable on all other hobs too, just without the demagnetising properties.</p>	<p>High-quality impact bonded 3-layer base is optimised for efficient and even heating in cookware products. The layers are formed with a thick Aluminium core between high-quality stainless steel layers.</p> <p>Used in all Fiskars stainless steel cookware products (excluding Norden Steel that is manufactured with multi-ply technology).</p>	<p>Cookware made with multi-ply technology has a stainless steel exterior and interior with an aluminium core between the steel layers. The aluminium layer is fully covered, making the product very long-lasting by preventing damage, while also providing a premium look.</p> <p>Works well on induction hobs. Heat also transfers well to the sides, making the item optimal for simmering.</p>	<p>LZR-EDGE™ technology is used in select Fiskars knives to give the knife long-lasting sharpness with the most perfect cutting angle. Sharpness lasts 4 times longer than a regular knife.</p>
Product lines	Taiten, Hard Face, Functional Form	Taiten OPTIHEAT™	All Steel, Hard Face Steel, Functional Form casseroles	Norden Steel	Hard Edge, Taiten
Ideal for	Ceramic hob, but suitable for all	Induction hob, but suitable for all	Performs well on all hobs	Performs well on all hobs	Long-lasting sharpness

Coatings explained

Cookware, especially frying pans, are usually coated to improve non-stick properties. The non-stick properties prevent food from sticking on the surface of the cookware and make it easy to clean. Aluminium products are always coated, steel is only coated when non-stick is desired.

There are differences in the qualities and properties of the coatings. Fiskars coatings are 2-4 layers, while the 4-layer coating is the most durable and scratch resistant. The thickness and number of layers corresponds to the durability and performance of the cookware. Long-term properties are ultimately relative to the quality and processing of the coating.

Even though coatings withstand high temperatures, the plastic blendings might turn more sensitive on a very hot pan over 240°C. Our ceramic-based, non-plastic coating Ceratec™ and surface

treatment Thermium™ are more heat-resistant and fare well on hot temperatures and with hard use.

All coated pans will eventually cycle out due to coating wearing or scratching off, and the cookware should then be disposed of. Our Thermium™ - and Ceratec™-treated stainless steel products can, however, be used like any other uncoated stainless steel cookware, even though non-stick properties will decrease over time. The consumer is left with a product that has all the desirable properties of stainless steel. The same applies to Thermium™ - coated enameled cast iron cookware.

Wooden, silicone, plastic and other non-scratching material utensils are highly recommended to maintain the coating surface in good condition and to lengthen the coated cookware lifespan.

FISKARS COOKWARE LIFECYCLE

❶ New Fiskars cookware is purchased from a store or fiskars.com.

❷ Old cookware is returned to recycling center or station when coating has worn off.

❸ Old cookware at recycling points and factory's surplus materials are collected and processed into recycled materials that end up back in the cycle for re-use.

❹ The recycled material is processed into new material components.

❺ High-quality Fiskars cookware is manufactured at historical Sorsakoski factory, in the middle of Finland, with modern and sustainable techniques.

Overall, the recycling rate for our cookware items is very high. On average, we use high-quality **90% recycled stainless steel** and **100% recycled aluminium** with our cookware products.*

We are very proud of the high percentages and aim to follow this **development** with other product lines.

*Excluding Norden Steel.

90% recycled stainless steel & 100% recycled aluminium

Taiten

Exceptional control for
moments of creation

A black Fiskars Taiten frying pan is shown from a low angle, with a hand holding the handle at the top. Inside the pan, several large shrimp are cooking, their shells turned a vibrant orange-red. The pan's surface is dark and reflective, showing some oil and small droplets. The background is dark and out of focus, emphasizing the pan and its contents.

Creation is like life shrunk into one process. It's
not about what waits in the end:
it's the small victories during your journey.
For you to be in control of every step of the way,
we have created Fiskars Taiten. So you can turn
the spark of an idea into something tangible
and beautiful using your own hands, skills,
aesthetic, and vision.

As you are immersed at the moment with Taiten,
there are no obstacles, only opportunities.
Your breathing is steady. Your movements are
fluid; your flow is unbreakable.

With Taiten, you have the creative freedom to
enjoy small victories on the way.

Taiten

Taiten features & benefits

1 Even heating

Made of 100% recycled, high-quality aluminium, which conducts heat extremely well, heating food not only from the bottom, but also the pan's sides.

2 Safe handle

Stainless steel handle is safe and ovenproof.

3 Superior coating

Hardtec Superior+™ coating is ultra-durable and guarantees excellent non-stick and easy-to-clean properties.

4 Energy saving base

The energy base heats up 50% faster on ceramic hobs and saves 30% energy.

5 Works on all hobs.

With frying pans and sauté pan, revolutionary **OPTIHEAT™** technology prevents the pan from overheating on induction hobs, making it an innovative choice for modern kitchens. Taiten cookware works with all hobs.

6 Made in Finland.

Taiten cookware is made in Sorsakoski factory in central Finland.

- All-In premium knife sharpener set is suitable for titanium or stainless steel knives with a straight blade.
- The set includes
 - a whetstone with two grits 1000/5000
 - a sharpening angle guide (26°)
 - a polishing leather and
 - a storage case

To sharpen your knife, follow these steps:

1 Soak

Start by soaking the whetstone in water for 5-10 minutes. Water will act as lubrication when you sharpen the knife.

2 Grey coarse grit

After soaking the whetstone place it in the non-slip holder with the grey/coarse grit (1000) facing upwards.

3 Knife in angle guide

When using the sharpening angle guide, the easiest way to start is by placing the angle guide close to the handle and tighten the orange knob.

4 Start sharpening

Hold the knife and angle guide so that the blade meets the stone. The angle guide is supposed to softly touch the stone together with the blade. Push back and forth across the stone with smooth and steady strokes.

5 Sharpen remaining parts

Move the angle guide closer to the tip of the knife to sharpen the remaining parts of the blade.

6 Turn the knife

After one side is done, turn the knife and repeat with the other side of the blade.

7 White smooth grit

Now it's time to turn the whetstone to finalise the sharpening, with the white/smooth grit (5000) facing upwards. Sharpen the whole length of the blade using the angle guide and repeat for both sides of the blade.

8 Rinse

You're almost done here. Now remove the angle guide from the blade and rinse both the knife and the whetstone under running water and dry both with a cloth. Be careful, your knife is now super sharp!

9 Polishing leather

Add a final touch by polishing the blade with the provided polishing leather. Place the leather on top of the stone with the rough side up and stroke the knife carefully along the leather 3-5 times on both sides (see image).

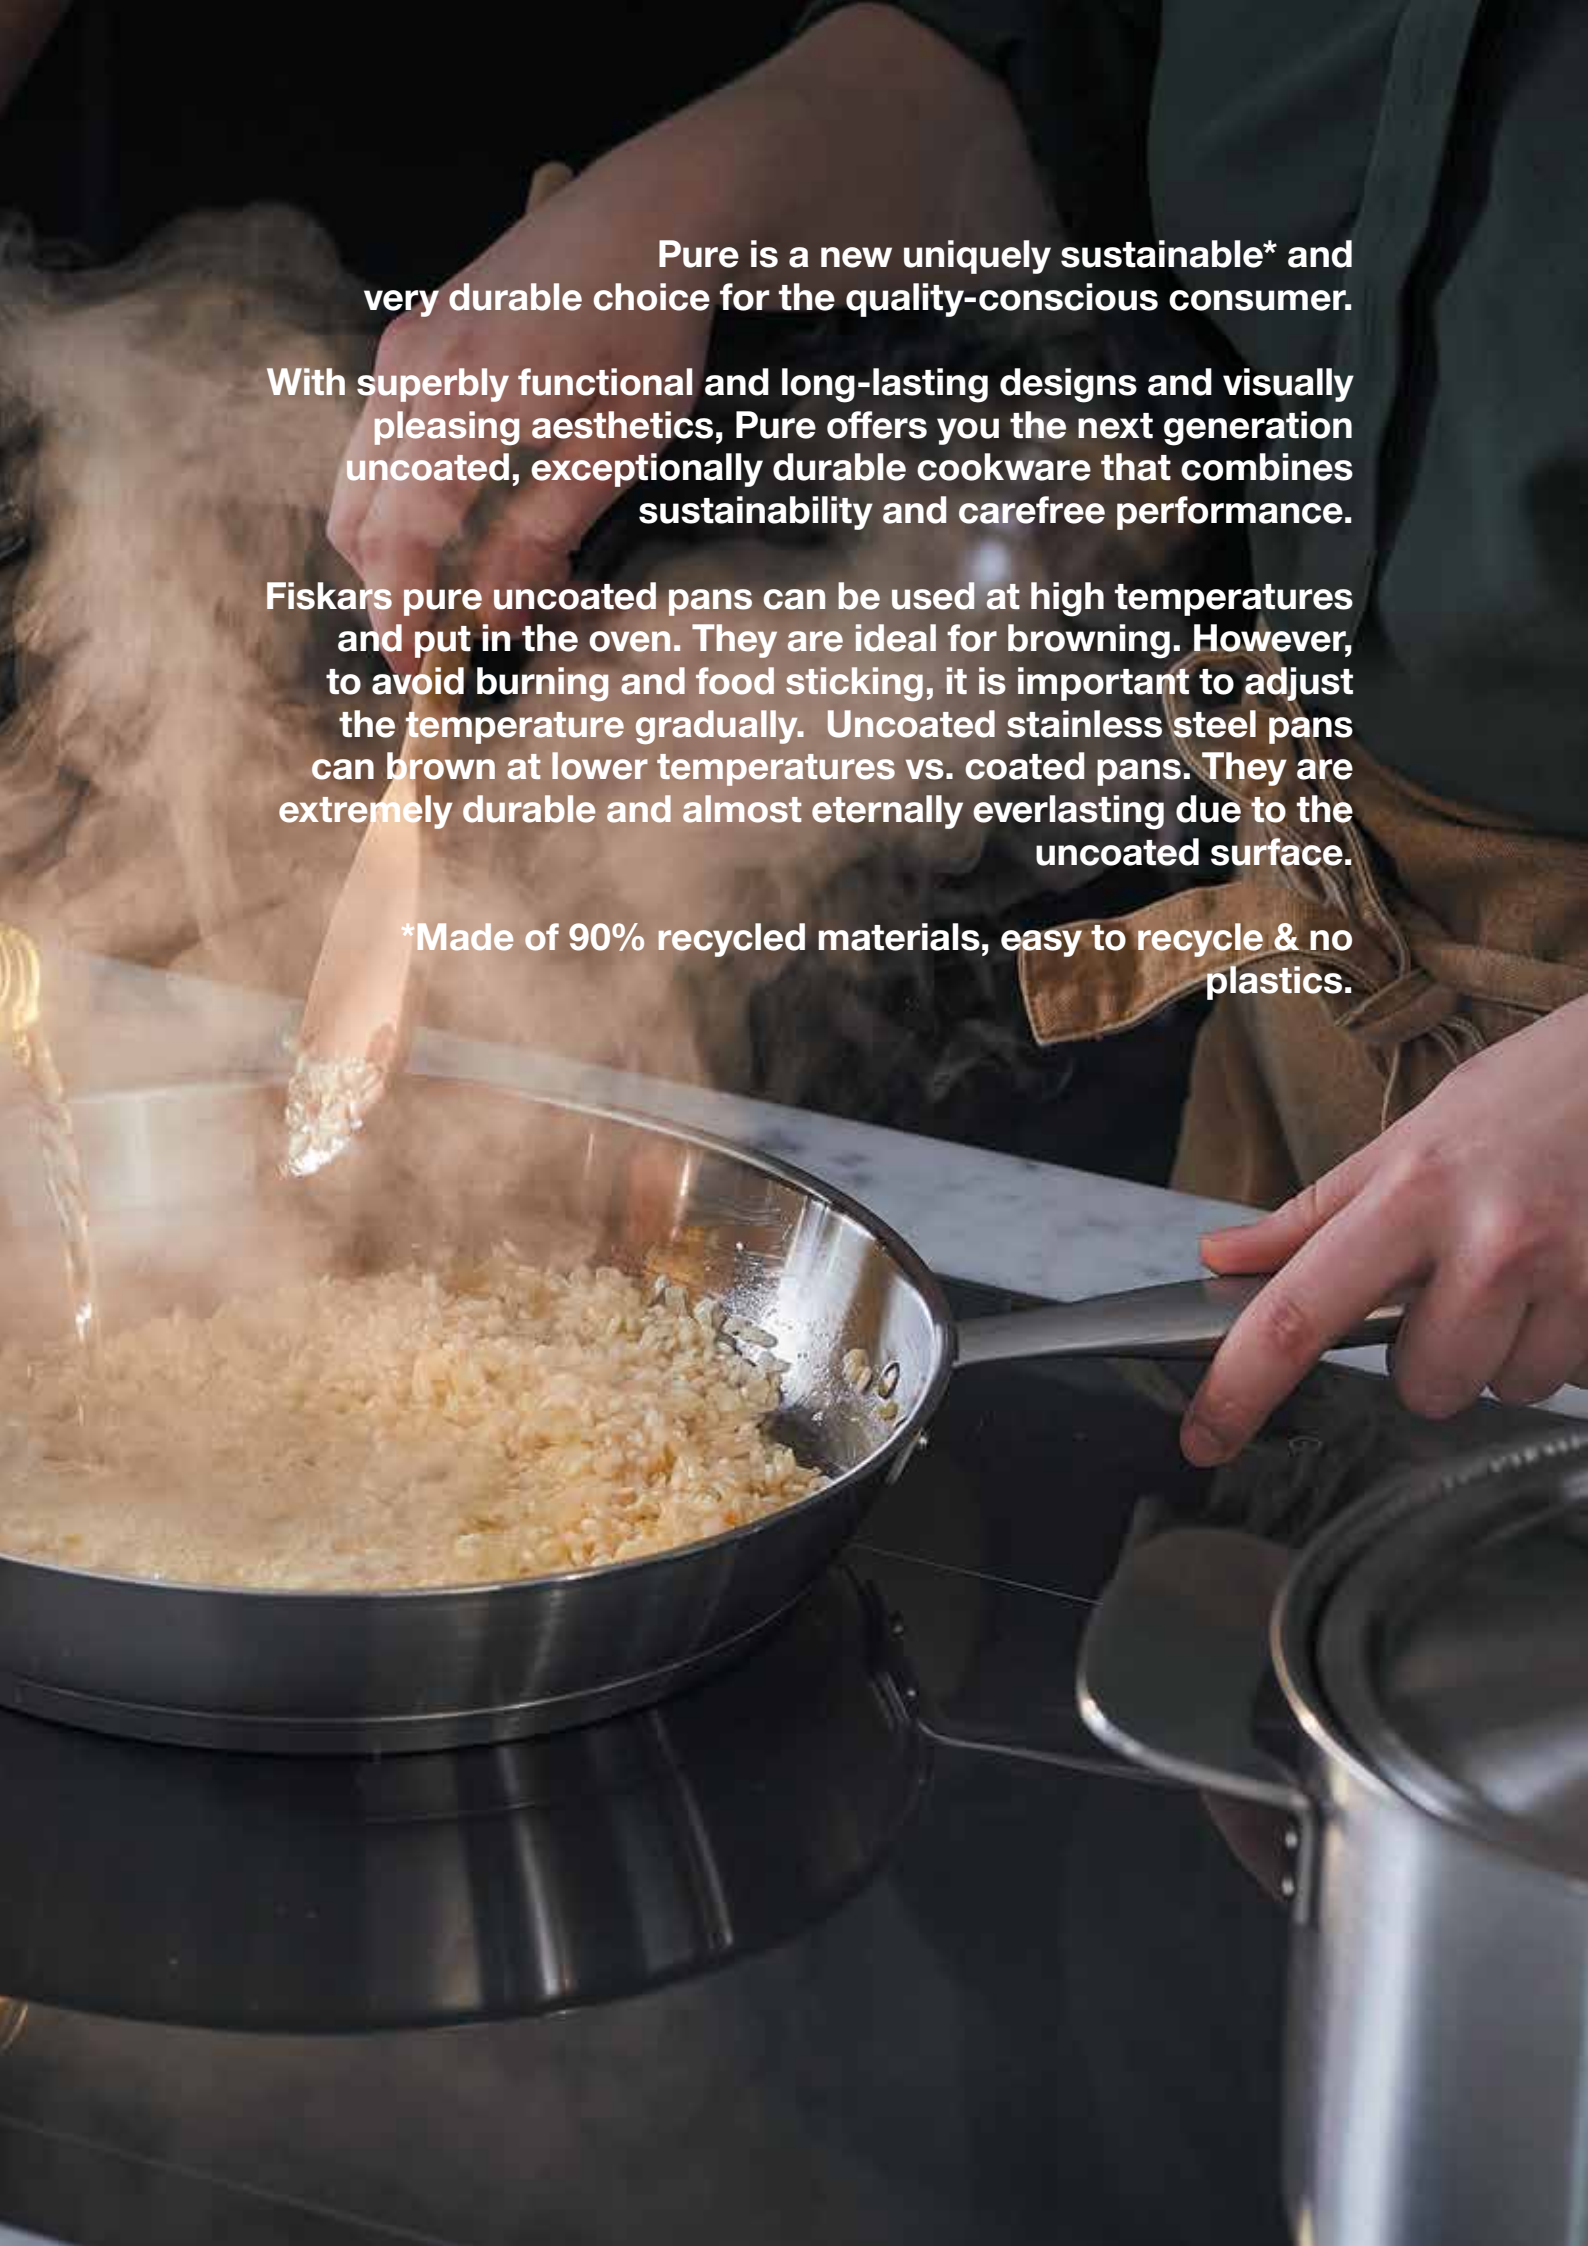

10 Maintenance

Congrats, now you're done! For more information on maintaining your knives, please visit www.fiskars.com

All Steel pure
Uncoated stainless steel
cookware that lasts

Pure is a new uniquely sustainable* and very durable choice for the quality-conscious consumer.

With superbly functional and long-lasting designs and visually pleasing aesthetics, Pure offers you the next generation uncoated, exceptionally durable cookware that combines sustainability and carefree performance.

Fiskars pure uncoated pans can be used at high temperatures and put in the oven. They are ideal for browning. However, to avoid burning and food sticking, it is important to adjust the temperature gradually. Uncoated stainless steel pans can brown at lower temperatures vs. coated pans. They are extremely durable and almost eternally everlasting due to the uncoated surface.

*Made of 90% recycled materials, easy to recycle & no plastics.

Did you know?

Uncoated stainless steel pure pans brown at lower temperatures vs. coated pans. That's why it's very important to adjust and lower frying temperatures to avoid food burning and sticking. Try yourself and find the optimal temperature for your pure cooking moment!

All Steel

Durable performance
for sustainable kitchens

A high-angle, close-up photograph of a dark-colored Fiskars All Steel frying pan on a black stovetop. The pan contains a mixture of green beans and cubed, golden-brown tofu. A silver-handled utensil is visible in the upper left corner. The background is slightly blurred, showing a kitchen countertop.

How we cook today shapes how we'll live tomorrow.

We thoughtfully select and store fresh, sustainable ingredients. We carefully craft recipes that nourish ourselves and loved ones, using only what we need and enjoying every bite of what we use. We do this to create a healthy future for ourselves, our families, our communities and our planet.

Fiskars All Steel allows us to make more mindful choices when equipping the kitchen as well. We prepare meals with pans, knives and utensils that reflect our commitment to the health and wellbeing of people and the environment.

**Consciously crafted, exceptionally long lasting.
All Steel, made for life.**

All Steel knives

Premium durability,
classic steel

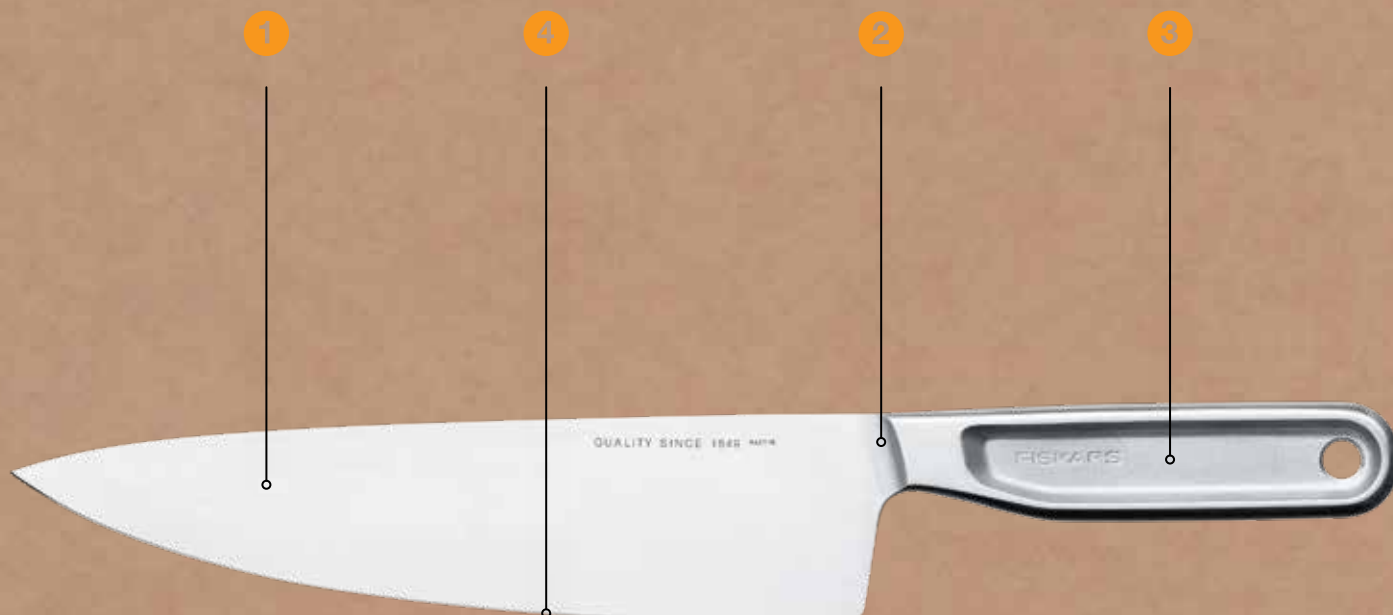

Welcome to classic steel.

Durable and resilient, timeless and refined, the All Steel range is designed for warm, joyful kitchens filled with fresh ingredients, inspired dishes, and the pleasure of everyday cooking. Crafted to endure and inspire, All Steel draws you in with its simple, elegant aesthetic, turning each ordinary step of the cooking process into notable, extraordinary moments. Whether you're creating a simple, delicious meal or crafting a dish with exquisite flavors, All Steel is the one you'll keep coming back to – time and time again – to transform any meal into a special occasion.

All Steel knives features & benefits

Features & benefits

① Premium steel

Made of Japanese high-carbon steel for excellent performance and durability. HRC 58.

② Optimal balance

Optimal center balance between the handle and the blade delivers premium cutting experience.

③ Minimalistic stainless steel design

The casted knife has a seamless stainless steel structure.

④ Durable, longevity choice

Quality high carbon steel provides lifelong use with minimal re-sharpening. If needed, the material is 100% recyclable. 25 years guarantee.

Hard Face

Toughest non-stick
cookware for
everyday cooking

A hand is holding the handle of a black frying pan. Inside the pan, there is a mixture of food including what looks like eggs, mushrooms, and possibly some meat or vegetables. Steam is rising from the pan. To the right of the pan, on a wooden surface, is a bunch of fresh green onions. In the foreground, there is a dark wooden pepper mill with a gold-colored top. A glass of amber liquid is partially visible on the right edge. The background is a dark wooden surface.

Hard Face is for tough use. The next generation Hardtec Superior+™ 4-layer coating has outstanding non-stick properties together with high abrasion and scratch resistance. The fourth layer in the coating also brings additional texture to the surface. The silent silicon lids have built-in pouring functionality. The wide Hard Face assortment is recommended for the toughest everyday cooking duties.

Hard Face

Hard Face features & benefits

1 Superior coating

The next generation of our Hardtec Superior+™ coating is even more durable and scratch resistant, for tough use.

2 Superior base

The energy base is optimised for 50% faster heating and saves 30% energy on ceramic hobs. The thickness of the base allows heat to distribute efficiently and evenly.

3 Safe handle

Comfortable handle stays cool and ensures a good grip.

4 Flat glass lid with 2 pouring options

Lid has silent and durable, heat-resistant silicone edges to support easy handling.

5 Works on all hobs

6 Made in Finland

All Hard Face products are made in Sorsakoski factory in central Finland.

A close-up photograph of a person's arm and hand, wearing a brown jacket, holding a knife and cutting on a wooden cutting board. The scene is lit with warm, golden light, creating a cozy atmosphere. In the bottom foreground, a pair of orange-handled scissors is partially visible on a dark wooden surface.

Hard Edge

Sharp and tough durability for everyday use

Fiskars Hard Edge knives are designed to ensure that they stay sharp and can comfortably handle everyday cooking needs.

The knife blades are made of thick stainless steel with the revolutionary LZR-EDGE™ technology on the cutting edge. This allows the knife to stay sharp 4 times longer than standard knives. The knife handles also feature an ergonomic design with a unique 3D pattern to ensure the perfect grip.

Hard Edge features & benefits

Hard Edge knives are designed to ensure longer lasting sharpness for all occasions.

1 Revolutionary LZR-EDGE™ Technology

The hero part of the Hard Edge knife is the blade and edge. The edge has been refined using LZR-EDGE™ technology giving the knife long lasting sharpness, lasting 4 times longer.

2 Thick stainless steel blade

The knives have thick cut stainless steel blades for durability.

3 Comfortable grip

A Softouch™ and three dimensionally patterned handle for a comfortable and safe grip.

4 Easy to maintain

The knife is easy to maintain, when needed, it is easy to re-sharpen: any sharpening tool can be used. The knife is also dishwasher safe.

Fiskars X littala

Fiskars X Iittala scissors

features & benefits

This Fiskars X Iittala collection unites two iconic design brands that celebrate the unexpected joys of everyday life. It is with honour that we bring the bold, joyful patterns of Finnish artist and designer Oiva Toikka's sketch book to life.

Features & benefits

1 Made in Finland, tested by hand

Made in Billnäs, Finland, based on an over 365-year tradition of craftsmanship. Scissors are hand-tested at the factory, ensuring premium, long-lasting quality.

2 Oiva Toikka's patterns come to life on the handles

- 3 different pattern designs
- Handles are ergonomic and comfortable
- For right-handed

3 Concept blade stamp

4 Sharp blades

High quality stainless steel blades are durable and long-lasting, HRC 57.

5 Screw enables adjusting blade tension

Screw keeps the blades steadily together.

“ I’m not looking for perfection. I want it to be fun.”

ReNew scissors

These Fiskars scissors are skillfully crafted from recycled and renewable materials at our factory in Billnäs, Finland. The scissors handles are made from an innovative biocomposite material consisting of 66% recycled post-consumer plastic and 34% renewable cellulose fiber, a sustainable alternative to fossil-based materials. The blades themselves are also made of recycled stainless steel.

In addition to being made of recycled and renewable materials, these scissors, like all Fiskars products, are designed to be of highest quality and to offer long-lasting performance.

ReNew

– a sustainable choice for all cutting needs in creating, cooking and gardening

Features & benefits

1 Made of recycled and renewable materials

Total scissors are made of 80% recycled materials and 13% renewable materials. Scissors are 100% recyclable. Scissors packaging is made of 100% recycled and recyclable paper fiber.

2 Sharp blades

Durable stainless steel blades are made of 85-95% recycled stainless steel.

3 Ergonomic design

Comfortable handles are made of 66% recycled plastic (post consumer package waste) and 34% natural cellulose fiber.

4 Made in Finland

These scissors are made using an eco-friendly process in our environment-, quality- and safety-certified scissors factory in Billnäs, Finland.

5 Tested by hand

Scissors are tested by hand at the factory. Only our very best scissors are ever cleared to leave the factory.

"My life is pretty hectic as I have to juggle work, family and hobbies. However, I want to try new things, when I cook for my family. A healthy meal is a way to show that I care for them."

Valeria, 39

working mother of two kids

Easy everyday cooking with Fiskars

Functional Form™

Fiskars makes **everyday cooking** easy and convenient for the **busy homemaker**. Our solutions take the whole cooking process into account and thus products are designed to be **easy to use, clean and store**, as well as work seamlessly together.

With easy **functionality combined with ergonomic**, safe and visually appealing design, it is easy for the busy homemaker to **succeed in the kitchen** and enjoy the process of cooking.

Functional Form is our most extensive range, consisting of a wide range of quality kitchen knives, utensils, scissors, cookware and cutlery for the needs of the busy homemaker. Functional Form makes everyday cooking **easy, convenient and time saving**.

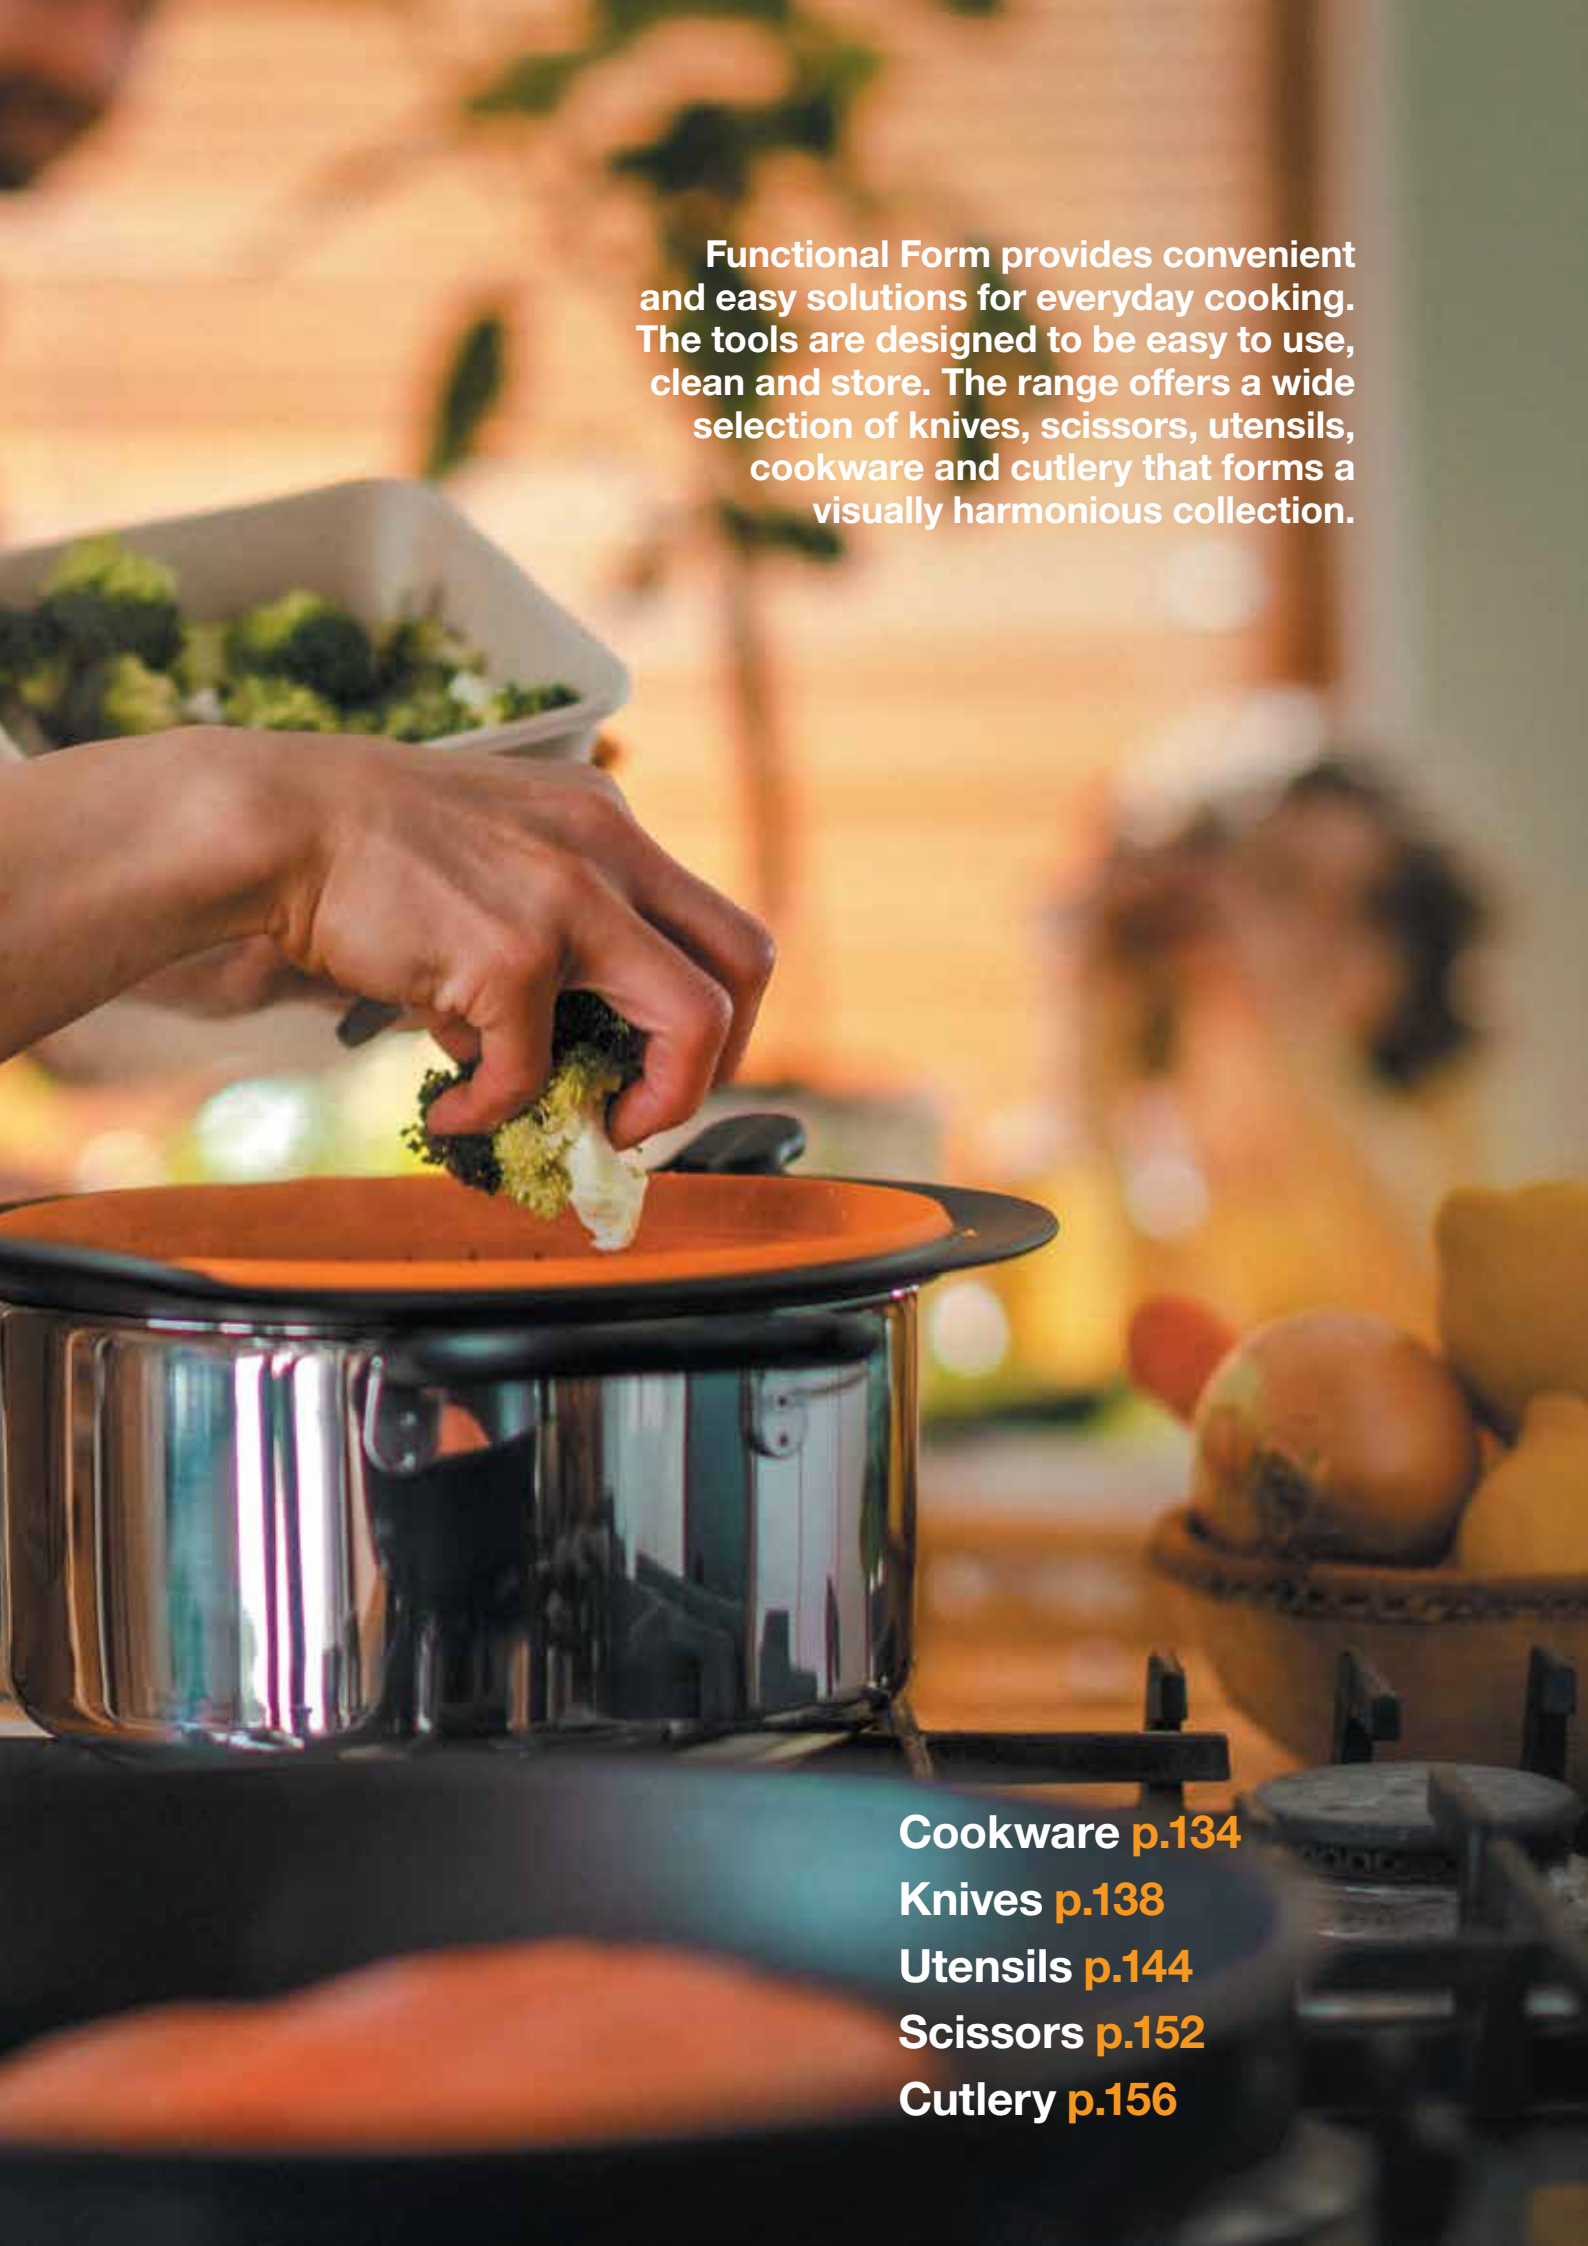

Functional Form™

✓ Easy to use ✓ Easy to clean ✓ Easy to store

A woman with dark hair, wearing a brown long-sleeved cardigan with a matching belt, is shown from the chest down, focused on cooking. She is in a kitchen setting with various items visible in the background, including a bowl of green herbs and a black object, possibly a pan or lid. The lighting is warm and soft, creating a cozy atmosphere.

Functional Form™

Ingenious design for easy
everyday cooking

A close-up photograph of a hand dropping a piece of broccoli into a stainless steel pot on a gas stove. The pot has a black rim and is filled with a red liquid. In the background, a white bowl filled with more broccoli is visible, and the scene is softly blurred with warm, golden light. The text is positioned in the upper right quadrant of the image.

Functional Form provides convenient and easy solutions for everyday cooking. The tools are designed to be easy to use, clean and store. The range offers a wide selection of knives, scissors, utensils, cookware and cutlery that forms a visually harmonious collection.

Edge knives

Modern all-around knife with
non-stick properties

Fiskars Edge knives have a sleek, modern design and innovative features. The specialised coating does much more than just gives the knife an attractive black finish – it makes it easier to maintain.

Edge knives features & benefits

Durability for easy cutting, easy cleaning and storing.

1 Strong and thick blade for better cutting

High-quality Japanese standard stainless steel and taper grinding ensure sharpness of blade.

2 Ergonomic design

Enables all grips and left/right handed use.
Handle enables user to hold knife close to blade.

3 Durable and easy to clean blade

Protective non-stick coating prevents corrosion and food from sticking to the blade.

4 Durable handle

Durable and impact resistant ABS plastic handle is easy to keep clean.

Height: 2 cm	Length: 43 cm	Width: 7,5 cm	Weight: 0,14 kg	Retail box: 5	Old art. no. 978305		

- Long, strong knife with serrated blade.
- Cuts effortlessly through hard bread crusts.

Roll-Sharp™ knife sharpener					Art. no. 1003098	EAN	 6 424009 787009
Height: 23,3 cm	Length: 3,7 cm	Width: 8,8 cm	Weight: 0,09 kg	Retail box: 6	Old art. no. 978700		

MADE IN
FINLAND

- Easy to use sharpener with ceramic grindstone and non-slip base for both right- and left-handed use.
- Ensures an optimal cutting edge and lifelong performance.
- Easy to take apart for cleaning.
- Also for thick blades such as bigger kitchen knives and cleavers.

Knife block with 5 knives					Art. no. 1003099	EAN	 6 424009 787917
Height: 8 cm	Length: 38,7 cm	Width: 18,7 cm	Weight: 1,61 kg	Retail box: 4	Old art. no. 978791		

- Knife block that you can mount on the wall, keep in the drawer or have on the counter.
- The knife block includes a peeling knife, tomato knife, bread knife, cook's knife large and Santoku knife.

Essential
Convenient all-around
cutting and preparing

The Essential range consists of knives, scissors and utensils.
Each item is designed to be practical and yet affordable.
The range is ideal for anyone looking for the
basic kitchen essentials.

Essential scissors

Poultry shears 23 cm					Art. no. 1023819	EAN	
Height: 2 cm	Length: 27,2 cm	Width: 8,8 cm	Weight: 0,14 kg	Retail box: 10	Old art. no. 1002914		

- Designed to be practical and ideal for anyone seeking to equip their kitchen with the basic must-haves.
- Strong poultry shears for skinning, cutting and finishing poultry and game.
- Curved, profiled blades make cutting easier and feature groove for cutting bones.
- SoftGrip™ handles with finger-loop suitable for both right- and left-handed people.
- Scissors has thumb-operated locking mechanism.

Kitchen scissors with bottle opener 20 cm					Art. no. 1023820	EAN	
Height: 1,9 cm	Length: 25,2 cm	Width: 8,8 cm	Weight: 0,1 kg	Retail box: 10	Old art. no. 1002915		

- Designed to be practical and yet affordable.
- Ideal for anyone seeking to equip their kitchen with the basic must-haves.
- Kitchen scissors have strong stainless steel blades with serrated lower blade that makes cutting particularly easy.
- Handles have integrated bottle opening function.
- For both right- and left-handed people.

General purpose scissors 21 cm					Art. no. 1023817	EAN	
Height: 27 cm	Length: 2 cm	Width: 8,5 cm	Weight: 0,07 kg	Retail box: 10	Old art. no. 1002703		

- Designed to be practical and yet affordable.
- Ideal for anyone seeking to equip their kitchen with the basic must-haves.
- General purpose scissors are ideal for all kinds of cutting tasks at school and in the home.
- Ergonomic handles ensure a good grip.
- For right-handed.

Paper scissors 17 cm					Art. no. 1023818	EAN	
Height: 24 cm	Length: 1,5 cm	Width: 8,5 cm	Weight: 0,04 kg	Retail box: 10	Old art. no. 1002704		

- Designed to be practical and yet affordable.
- Ideal for anyone seeking to equip their kitchen with the basic must-haves.
- Paper scissors are lightweight compact scissors with long stainless steel blades for cutting paper.
- Ergonomic handles ensure a good grip.
- For right- and left-handed.

Cuts+More Multi-purpose scissors					Art. no. 1000809	EAN	
Height: 30,3 cm	Length: 2,5 cm	Width: 12 cm	Weight: 0,13 kg	Retail box: 3	Old art. no. 715692		

- Ultimate right-handed multi-purpose scissors.

Essential utensils

Peeler

Height: **24,5 cm** Length: **1,7 cm** Width: **6,5 cm** Weight: **0,03 kg** Retail box: **5**

Art. no. **1065585**

Old art. no. **1023786**

EAN

- For peeling fruit and vegetables.

Swivel peeler

Height: **24,5 cm** Length: **1,7 cm** Width: **6,5 cm** Weight: **0,03 kg** Retail box: **5**

Art. no. **1065586**

Old art. no. **1023787**

EAN

- Swivel peeler for peeling fruit and vegetables easily.

Vegetable peeler

Height: **21 cm** Length: **1,5 cm** Width: **6,5 cm** Weight: **0,03 kg** Retail box: **5**

Art. no. **1065599**

Old art. no. **1023824**

EAN

- Y-shaped peeler for peeling vegetables.

Cheese slicer

Height: **22 cm** Length: **1,8 cm** Width: **7,5 cm** Weight: **0,04 kg** Retail box: **5**

Art. no. **1065587**

Old art. no. **1023789**

EAN

- The angle of the stainless steel blade ensures that the cheese does not break while cutting.

Soft cheese slicer

Height: **17 cm** Length: **1,8 cm** Width: **7,5 cm** Weight: **0,03 kg** Retail box: **5**

Art. no. **1065588**

Old art. no. **1023790**

EAN

- The short stainless steel blade prevents soft cheese from sticking to the blade.

Grater, 4 sides

Art. no. **1065589**

EAN

Height: **23 cm**

Length: **8,3 cm**

Width: **11 cm**

Weight: **0,16 kg**

Retail box: **5**

Old art. no. **1023798**

- Classic rectangular grater with all standard grating functions and robust handle at the top.

Baking brush

Art. no. **1065590**

EAN

Height: **29 cm**

Length: **1,5 cm**

Width: **6 cm**

Weight: **0,03 kg**

Retail box: **10**

Old art. no. **1023802**

- Brush with heat-resistant natural bristles. Design by Tobias Wandrup.

Dough scraper

Art. no. **1065591**

EAN

Height: **35,8 cm**

Length: **0,8 cm**

Width: **6 cm**

Weight: **0,05 kg**

Retail box: **10**

Old art. no. **1023803**

- Scraper with asymmetrical silicone head.
- Easy to use for scraping at different angles. Design by Tobias Wandrup.

Spoon

Art. no. **1065592**

EAN

Height: **38 cm**

Length: **4 cm**

Width: **6,8 cm**

Weight: **0,03 kg**

Retail box: **10**

Old art. no. **1023804**

- Large cooking spoon.
- Pointed shape that makes it easy to get into all corners. Design by Tobias Wandrup.

Pasta spoon

Art. no. **1065593**

EAN

Height: **38 cm**

Length: **5,5 cm**

Width: **6 cm**

Weight: **0,04 kg**

Retail box: **10**

Old art. no. **1023805**

- Pasta spoon that ensures good grip on pasta while allowing cooking water to drain away.
- Hole can be used to measure 1 portion of spaghetti. Design by Tobias Wandrup.

Non-drip soup ladle

Height: 38 cm	Length: 8 cm	Width: 8,5 cm	Weight: 0,05 kg	Retail box: 10	Art. no. 1065594	EAN	
					Old art. no. 1023806		

- Drip-free edge ideal for both right- and left-handed users.
- Capacity 100 ml. Design by Tobias Wandrup.

Spatula

Height: 38 cm	Length: 5 cm	Width: 6 cm	Weight: 0,03 kg	Retail box: 10	Art. no. 1065595	EAN	
					Old art. no. 1023807		

- Flexible spatula with sharp edges and practical, asymmetrical head. Design by Tobias Wandrup.

Easy-care whisk

Height: 35,5 cm	Length: 5,5 cm	Width: 6,5 cm	Weight: 0,02 kg	Retail box: 10	Art. no. 1065596	EAN	
					Old art. no. 1023809		

- Pan whisk that is particularly well-suited for making sauces, etc.
- Easy to clean, removable head, ideal for non-stick surfaces. Design by Tobias Wandrup.

Tongs

Height: 37,5 cm	Length: 1,5 cm	Width: 7 cm	Weight: 0,03 kg	Retail box: 10	Art. no. 1065597	EAN	
					Old art. no. 1023810		

- Ideal for non-stick surfaces. Design by Tobias Wandrup.

Service and care

Service and care

Knives

The proper knife can make all the difference when it comes to preparing your ingredients. Not only is it essential to choose the correct style of knives for the dish and tasks at hand, you'll also need to consider which features — including comfort, aesthetics, longevity and more — make a knife or kitchen knife set ideal for you and your kitchen. Fiskars knows the importance of equipping your kitchen with the right tools, and we offer not only an inclusive, thoughtful assortment of knife styles, but also ranges that fit all of your must-haves and suit your personal preferences.

MAINTENANCE

The better a Fiskars knife is looked after, the longer the intervals, before it needs sharpening. However, it is perfectly normal for a knife to need sharpening every once in a while to maintain a perfect cutting edge. A knife stays sharp longer if you make sure to always cut on a suitable surface such as a chopping board made of wood or plastic. You should never use the knife directly on hard kitchen surfaces as this will blunt the edge.

Professional chefs use a sharpening tool each time when using a knife, to make sure it is sharp and ready for use. In normal domestic kitchens, it is not necessary to sharpen your knives as often. It is enough to either sharpen them at regular intervals or simply when they need it. Fiskars knives made of steel, have a hardness of between HRC 52 and HRC 58, which makes them ideal for everyday household use. Sharpening also made easy, using either a Fiskars Roll-Sharp™, a Fiskars sharpening steel or a Fiskars Whetstone.

Using a Fiskars Roll-Sharp™ for getting the job done quickly and easily. The Roll-Sharp™ should be placed on a flat surface, and the blade of the knife pushed backwards and forwards through it, 15-20 times. This makes sure the sharpening takes place at exactly the right angle. It is important that you move the knife backwards as well as forwards to make sure it gets sharpened on both sides. Using a sharpening steel or a whetstone requires some skill. The total sharpening angle of the knife is determining in which degree angle the sharpening should be done. With a sharpening steel the knife should be passed down the sharpening steel at the optimal angle each way,

and repeated on the other side. Use long, even strokes. The Fiskars® Whetstone Knife Sharpener includes all equipment that is needed for sharpening a knife. This extremely effective knife sharpener is suitable for use on all Fiskars® knives, including Titanium knives, which can only be sharpened with a sharpening stone. The package contains detailed instructions for safe, comfortable at-home knife sharpening. Irrespective of which method you prefer to use to keep your Fiskars knives sharp, you should rinse off the knife using hot water and dry it once you are finished.

CLEANING

Most Fiskars knives can be washed in the the dishwasher. Norden, Titanium, Norr & All Steel knives should be washed by hand. When washing your knives by hand, rinse and dry them off straight after washing. Fiskars knives must not be left to soak. It is also important not to allow food remains to dry on the surface of the knife, because acids present in the food residue will damage the knife in the long run. If you do put Fiskars knives in the dishwasher, it is a good idea to make sure they do not come into contact with other utensils, dishes or cutlery, because this will cause damage to the cutting edge.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If you prefer to wash your Fiskars knives in the dishwasher, open the door to let the steam escape. It is also a good idea to dry off the knives with a dry cloth once the dishwasher cycle is complete. If rust spots do appear on your knives you can remove them by using a regular steel cleaning product.

STORING

Most knives quickly become blunt, if they are just placed in a drawer, because the cutting edge gets damaged by movement and contact with other items. To keep Fiskars knives sharp, they should either be placed in a knife block or on a magnetic wall rack.

Scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

The nickel-free blades are precision-ground, and our Classic, Functional Form, ReNew, Fiskars X littala as well as Fiskars X Moomin scissors are made of hardened Swedish Sandvik steel with a hardness of HRC 57. The scissors that have a screw enables easy adjustment of blade tension.

MAINTENANCE

Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

STORING

Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.

Cutlery

All Fiskars cutlery is made of stainless steel. Despite the name, no steel of any type can be absolutely resistant to external influences. Stainless steel is a name for steel that is rust-resistant, and where any small particles of rust can easily be removed using steel cleaner.

CLEANING

New cutlery should always be washed before first time use. To keep Fiskars cutlery looking good for as long as possible, it is advisable to polish it with a regular steel cleaning product at least once a year.

Handwashing is recommended for Fiskars cutlery to keep the items in good condition. Cutlery should be dried carefully after washing. If cutlery is placed in the dishwasher, it should be rinsed beforehand. Once the dishwasher cycle is complete, the door should be opened to let the steam escape. To get the very best result, cutlery should be dried with a cloth once the dishwasher cycle is complete.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If rust spots do appear on your cutlery, you can remove them by using a regular steel cleaning product.

Service and care

Cookware

Fiskars uses durable materials of high-quality and also invests in R&D in order to make the best possible cookware, every day.

ALUMINIUM, STAINLESS STEEL AND CAST IRON FOR THE BEST POTS AND PANS

As a core material for coated pans aluminium beats all others thanks to its phenomenal heat conductivity. Also the sides of the pan heat the food. Aluminium pans are easy to handle because aluminium is a light metal. It is also a soft material, which is why we coat the entire pan so it can withstand wear much better. Stainless steel is extremely durable, easy to care for and to clean. Stainless steel withstands very high temperatures and corrosive substances, such as acids. Only highly concentrated solutions of cooking salt and extremely strong acids can damage a stainless steel surface. Products with plastic fittings are oven safe up to 150 °C and products with stainless steel fittings up to 250 °C. Cast iron cookware conducts heat extremely well. The enamel protects the cookware from rusting. Even though the dish is incredibly durable, the enamel glaze can flake or peel if it is hit against hard objects.

COATINGS

The quality of the coating is essential and therefore Fiskars is constantly working to make coatings stronger and to further improving their non-stick properties. The Fiskars coatings have excellent non-stick properties. The advantages of this coating include its hardwearing nature and effective corrosion protection. For a longer life span, please use plastic and wooden utensils.

USE AND MAINTENANCE

Put some oil or a couple of tablespoons of water in the pan before starting to cook. Do not heat up an empty pan. Once the oil has browned or the water has evaporated, the pan is hot enough for frying. Fry on moderate heat. Do not add salt before the water is boiling, and do not store food in coated pans. Hot cookware should not be put in cold water as the temperature shock may cause the base to become uneven.

CLEANING

Wash the cookware before using it for the first time and clean the cookware immediately after use. All products are dishwasher safe. Washing coated aluminium and stainless steel cookware by hand will prolong their life span.

The new Norden cast iron & stainless steel cookware and frying pans should be hand washed only. Thoroughly dry the cast iron cookware after washing. This will prevent rust forming on the edges, as the edges are not protected by the enamel.

—
! All Fiskars Kitchen products are officially approved for use in direct contact with food products.

Fiskars has championed the ageless principles of high quality, intuitive and sustainable design since 1649. We empower every enthusiast to follow their passions and create the life they want. We believe that making our daily activities enjoyable, inspiring and sustainable builds happiness and wellbeing that extends beyond our homes – to our families, our friends, our communities, and our planet.
